## WORK EXPERIENCE

### QA-ENGINEER

LLC «LegendCity»

01/2022 - Present

Omsk, Russia (remote)

Responsibilities/Achievements:

- I conduct manual testing of web, mobile applications (Android) - I make bug reports, checklists and test cases.
- I put the found bugs in GitLab, where I track the status of their fix.
- I work with databases and write simple SQL queries in the MySQL program.
- I work with OC Windows, Android
- Tools: Dev Tools, Postman
- During my work in the company, i wrote a huge number of checks, thereby raising the test coverage of projects to a new level.
- I found several critical errors - for example, errors when accruing balance to partners, the crash of the Legendcity application, errors during transactions.
